THE TRIBUNE.

THURSDAY MORNING, APRIL 21, 1842.

LEAN AGENT for the sale of this paper, and the AMERI CAN LABORER, is wanted at Providence, R. I., to commence on Monday, the 25th instant.

For a notice of the Poets of America and Mr. McDaniels's Speech at the Fourier

Festival, see First Page. For Markets and New Views of Temperance, see Last Page.

To expose the heartless malignity and utter falsehood of the attack upon us in the leading article of yesterday's Sun, it can only be necessary to state that we have uniform ly advocated the giving of the Corporation Printing by contruct to the lowest bidder, and that we have uniformly declared to our friends (many of whom have tendered us their sujport) that we would in no case be a candidate for that Printing, or receive it on any terms. If any one think our word needs endorsement on these points, we refer him to the Alderman elect of the Fifteenth Ward, or to any one of the many with whom we have conversed on the subject. Our determination on this point has been openly, publicly preclaimed on all fitting occasions, and is so notorious that the

attack of the Sun evinces unmitigated deception and villany. The Sun now, when its party has lost the power, comeout most valiantly against "the reprehensible practice of feeding party presses from the Public Treasury. But it soul not a word against that practice so long as the patronage as in the hands of its own party, and while they were goinging two presses with thousands racked and wrung from the hard earnings of the People, by enormous 'Assessment' jobs as well as by direct drafts on the Treasury." We, on the other hand, said little or nothing on this subject, while our nelversaries were in power, but, the moment victor declared for our side, we insisted that these abuses muscease. The public will decide which of us has acted the

And now as to the conjoined falseh-od of the Sun that we have counseled violence and instigated bloodshed if the Whigs are cheated out of their fairly won triumph in the the election. Nothing like this is true. We have indeed dured the Other-Holders to proceed with and consummate their meditated fraud; but we never advised or counseled any other than legal resistance, or anticipated other consc quences to the conspirators than the condemnation and loathing of all honest men and good citizens. This is what we do confidently anticipate-that if Loco-Focoism holds the City by fraud this year, it will not hold it again for many years to come. We say, therefore, to all our friends, ' Re active, be vigilant in spreading the truth in regard to this conspiracy before the whole People, but he ready to submit peaceably if the conspirators can shelter their iniquities within the forms of law. Do not fear to be cheated out of our un inubted triumph for a short time-such a result will rally thousands of honest men to our standard, and prove of last ing benefit to the Whig cause. Meantime we shall go for ward with our fearless exposure of the villainies by which the Office Holders have sought to win and now, when defented, seek to hold the Common Council, and leave the consequences to an outraged and justly indignant People.

Sixth Ward.

IF The Evening Post hints a doubt as to the fact that its correspondent "Major Brydges" is a Loco-Foco. But there is no doubt in the case. Had he been a Whig, he would not have omitted the vital fact that the votes for Charter Officers in the First District of the Sixth Ward have all the consequences light where they may. been regularly canvassed and the result declared, in the presence and under the advice of the Mayor. The cavil about the possible inaccuracy of the return is entirely an afterthought, which is refuted by the correspondence of the vote for Charter Officers with that for Mayor. With or with out the rote of that District, Messrs. Crouws and ATWELL are chosen; if all the Loco-Foco votes therein had been given for either set of Loco-Foco candidates they would not have been chosen. These are facts which 'Major Brydges' withholds; but they are pertinent to the issue, and most effectually demolish every cavil which has been raised against the return of the Whig candi-

Congressional Reporms .- We await with no little impatience the appearance of the Reports of the Committees in the House of Representatives on Retrenchment and an Expenditures. They have been earnestly and vigorously engaged in the work assigned them, and, from the results of their labors so far as published, we are warranted in believing that, after they shall be fully known to the public, and the profligate abuses which have been practiced in every department of the Government, by the party whose rule recently expired. shall have been exposed in all their naked enormity, the Loco-Focos will utter their hypocritical howlings at the delay of the Whigs in making promised investigations and in effecting promised reforms, in the faintest possible whispers. We find some rich items in the Washington letter of the Commercial Advertiser, from which it appears that, in every department yet laid open to their inspection, the grossest profligacy has prevailed. Mr. Gilmer, for the Retrenchment Committee, has made a valuable report on Mileage, showing that the annual amount of charge to the Treasury for the mileage of Members is \$142,810; and he proposes that the distances be calculated directly. making thus an annual saving of no less than \$41.436. In addition to this the Committee recommend that six dollars, instead of eight, as at present, be paid for every twenty miles; making another annual saving of \$77,138. We trust ardently that these recommendations will receive the attention they deserve.

The same Committee recommend a bill to abolish the Franking privilege enjoyed by Congress: and they support their recommendation by pointing out the inconvenience caused by mails thus overburdened, by a prolongation of Congressional Sessions, by the higher rates of postage made gecessary by the great expense incurred in carrying free letters and packages, and by various other most forcible arguments. Mr. Stanley, from the Committee on Expenditures, discloses a neat job in the employment by Mr. Kendall of George Plitt as special agent of the Department, to travel in Europe at the expense of the United States. He was absent fifteen months, and received as his

leaving a balance in his favor of \$946 64. To meet his demands in 1839, Mr. Van Buren authorized Kendall to transfer \$3,000 from the annual appropriation of Congress for the transportation of the mail. The Committee deem this an abuse of power and a wanton waste of the public money. They say that if the P. M. General has a right to send one such agent, he may send a dozen; and it he can do this, every head of department may do the same thing. They report a bill to prevent the recurrence of similar squanderings of the people's

We are assured by "One of the County Curvassers" that no motion was made in the Board to declare Robert H. Mørris elected by a majority of all the votes cast. The matter was informally suggested and overruled, without any distinct motion on the subject.

The Pertland Argus says it is understood that Mr. WEBSTER has written to the Governor of Maine, and also to the Governor of Massachusetts requesting them to call Extra Sessions of their Legislatures to appoint Commissioners to treat with Lord Ashburton on the North Eastern Boundary

IF The Britannia probably arrived at Boston vesterday with news three days' later. The Caledenia was to Leave Liverpool the 19th inst. The Acadia leaves the 14th of May, the Columbia on the 19th, and the Great Western on the 21st.

Eighth Ward.

If the City Office-Holders had rested satisfied with cheating us in the vote at the late Charter Election, we might have hesitated to encounter he trouble and hostility which we incur by exposing their 'pipe-laying' operations. But after we had fairly beaten them in spite of their colonizing and foul voting, to have them attempt to come another swindle upon us in withholding the rearms from the Aldermen elect, is presuming a ittle too much upon good nature; and we have hosen to resist and expose them at whatever per-

We propose now to pay our respects to another perator in the Eighth Ward-Mr. John Orser by name, late a Custom House officer, and somewhat famous as a marshal of Indomitables, Butt-Enders, &c. And, in order to do no injustice to any one, we shall endeavor to state the case pre-

risely as it has reached us: A day or two previous to the Election, two adies of the Eighth Ward were passing the house of Mr. Orser, when it began to rain, and they took refuge in that house, one of them being an acquaintance there. They found things in delectaole confusion, and the inmates apparently engaged n converting the house into barracks or a garrison. "How is this?" said the lady acquainted 'you seem to be all in confusion." "O nothing." replied the lady of the munsion, "only we are going to have some Democrats to sleep here."

We state these circumstances precisely as they have been related to us. We base no charges upon them, and tender our columns to Mr. John Orser for any explanation or denial he may choose o make. We think he will agree with us that ome explanation is needed.

We have no personal acquaintance with any of he gentlemen on whose conduct we have been constrained to animadvert in relation to this Elecion, and certainly no personal feeling against them. But we take our stand on the purity and inviolability of the Freeman's Right of Suffrage, and we are determined that no conspirators against that Right shall escape unexpesed or unrebuked. The Right of Suffrage is the palladium of all other Political Rights; it must not be subverted while there is a Freeman's arm or voice to be raised in its behalf. The security of this Right in our City was lately guaranteed by the only measure which can ever be effectual-a Registration of Voters; that has been swept away by Loco-Focoism-and to what end? Let the scenes of the late Election give the an-

We have resolved to give publicity to all the fuces which shall come tangibly to our knowledge

CANADA .- The Governor of Canada has appointed Sir James STUART Deputy Governor of Hon. EDWARD BOWES President of said Court for the Districts of Montreal, Trois Rivieres and St. Francis: and Hon. JEAN ROCH ROLLAND President for the District of Quebec, and Hon. Edward Bowen, Jean Roch Rolland, John Stewart, Andrew William Cochran, Hugues Heney, George Pemberton and Louis Panet, to be members of Her Majesty's Executive Council for the Province of Canada.

The Providence Chronicle of Tuesday vening gives the following as the number of votes given for the Suffrage Candidate at the various ities and towns in Rhode Island so far as heard from: Providence, 2,154; Bristol, 140; Smithfield, 660; Cranston, 232; Jahnston, 215; Barrington, 40. It states that if there be any violent action it will not occur until the 3d of May, when he persons voted for are to be sworn in. The Evening Post says that a letter has been received, which states that the Suffrage Party have sucweded in electing all their officers, with the exeption of one or two representatives. The same etter says, that a rumor prevailed in Providence that a body of United States' troops had been ordered from Boston, and that the greatest excitement existed in consequence of the supposed in-

Rev. A. B. Davis will deliver a Lecture on "American Antiquities and the Discovery of New-England by the Northmen" in the Central Presbyterian Church, Broome-st., on Wednesday evening next. From the testimonials of the Press, we are confident he will illustrate his subect with decided ability.

IF Dr. Cox lectures at the Rotunda in Prince treet on Jerusalem, for the benefit of a charitable ociety this evening.

While it re-mains under such management it will be the pride and orna-ment of our city. That little Gipsy girl continues to aston-ish all who hear her. ish all who hear her.

Splendid Meteor.

From the Western (Chatanque Ca.) Messenger, April 18. On Monday morning last, about three o'clock, we were awakened by a sudden and extremely orilliast light, which shone through the window of our sleeping apartment. On opening our eyes, we had a momentary glimpse of a vividly luminous body or trail which almost instantly passed out of sight, and was gone. We were convinced it was a large meteor, and expected an explosion. We waited from three to five minutes, when a report burst through the welkin like a piece of heavy ordnance standing within a short distance. There was nothing in it like thunder but a perfect resemplance to the sound we have named. house very sensibly, as it did others,-in one in stance jarring a tooth brush from the window to the floor. Its direction was northerly, and the explosion took place, probably, ever the lake.

We found, in the morning, that our citizens

generally were awakened by the report, though not many saw the splendid chiecl that occasioned it. Mr. Tracy, the stage agent, and the stage driver. were at the time at the barn, just leaving it with a fresh team, when they saw the light, and at the same time heard a cracking or crushing noise, like that of a falling tree. The source of light appeared like an oblong body of fire rushing with remendous velocity through the air, and eight or ten inches in diameter. It seemed to approach the place where they stood in a curvilinear path and led one of them to exclaim, " It will strike the para!" It however passed over, and disappeared as it seemed to them, about half a mile from the point of observation. In its course, it gave off frequent sparks, or streaks, from the sides, and this was probably the occasion of the snapping or gathering noise which was heard Its disappearance was quite singular as described. The long fiery tail seemed to separate from the nucleus, or send, and the latter rushed on, emiting a dark blue flame; but there was no division of its body into fragments, or any thing else to indicate : racture, unless indeed the very suparation of the fiery and blue portions were the result of the ex-The light emitted was nearly as bright as day-

ight at meridian. The shingles on distant houses were distinctly visible. Mr. Sexton, our postmaster, was, at the time of its passage, assorting the mail, having two candles to furnish him light, but the light of the meteor was so great as to make them appear like burning candles in full daylight.

From all we can gather, at least three minutes nust have elapsed between the disappearance of the meteor and the hearing of the report. Consequently, as sound travels at the rate of a little over thirteen miles a misute, the body of the meteor must have been nearly forty miles from us, either in elevation or horizontal distance, at the time of ts explosion. Probably it was much higher than it appeared to be to the gentlemen who witnessed it. The whole duration of its appearance was not nore than half a minute, if it was as long.

Its elevation was 564 miles from the earth, and is diameter 1070 yards! It is worthy of remark. that most of those which have been sufficiently noticed to form any satisfactory estimate concerning them, have been found to be between fifty and sixty miles from the earth's surface.

Explosive meteors have usually, if not always, been attended with the dropping of stones to the earth. The stones thus broken and fallen are generally not large, weighing from a few ounces to dozen pounds. There have been instances, nowever, where huge masses have fallen. In 1795 ong fell in Yorkshire, which measured 30 inches in length, and 284 in breadth, and weighed 59 pounds. It fell with such force that it sunk into the round to the depth of twenty-one inches. The most remarkable stone, for size, whose fall has over been witnessed, was one which fell in Connecticut some 25 years ago. This fell in the day time, we believe. It was so bright as to be lu minous, but, if we mistake not, it was not attended with an explosion. It rushed down into the earth with tremendous force, and gave such a jar and rumbling as led many to suppose that an earthquake had happened. It was seen to fall, and people soon repaired to the field and found its purrow. It was shortly uncovered, though it had IF A house in Clements, N. S., was destroyed sunk some three or four feet beneath the surface. Its weight, if we are not much mistaken, was not far from a ton.

Postscript.-Since writing the above, we have conversed with Mr. Horace Palmer, who was on his way from Dunkirk to this place, when the meteor appeared. He was two or three miles from Dankirk, when he appeared to be instantly surrounded with a most painfully vivid light, proceeding from a mass of fluid or jelly like substance, which fell around and upon him, producing a sulphureous smell, a great difficulty of breathing, and a feeling of faintness with a strong sensation of heat. As soon as he could recover from his astonishment, he perceived the body of the meteor passing above him, seeming to be about a mile high. It then appeared to be in diameter about the size of a large steamboat pipe, near a mile in length! Its dimensions varied soon; becoming first muck broader and then waning away in diameter and length until the former was reduced to about eight inches, and the latter to a fourth of a mile, when it separated into pieces which fell to the earth and almost immediately he heard the explesion, which he says was tremendous. On ar riving here in the morning, his face had every ap pearance of having been severely scorched; his eyes were much affected, and he did not recover from the shock it gave his system for two or three days. This is really a marvelous story; but Mr. l'almer, is a temperate and an industrious man, and a man of integrity; and we believe any one conversing with him on the subject, would be satisfied that he intends no deception; but describes the scene as nearly as possible, as it actually appeared. Probably however his agitation at his sudden introduction to such a scene, caused the meteor to be somewhat magnified to him. Witnesses here speak of the sparks which were thrown off; probably one of those sparks fell and enveloped states that its passage was accompanied by a sound

like that of a car moving on a railroad, only louder. At Salem, an observer stated the meteor to be "as large as a house"-rather indefinite, but proving it to have been one of extraordinary magnitude. It was noticed at North East, Waterford. and Sugar Grove, Pa.; Harmony, Chautauque and other towns in this County. The report was heard also at Baxalo. In Chautauque, an observer describes it as six or eight inches in diameter, and

We learn also that it burst about three miles bevond Fredonia, or about eighteen from this place. The report is, that a fragment has been found, a foot or more in diameter, but we know not the original authority of the statement.

half a mile long.

If it did burst where it is represented to have done, and it was seen here until it exploded, its elevation must have been about 35 miles. This is pretty low in comparison with most of them, but it would seem from the account of Mr. Palmer that it was much lower still. Perhaps it was not observed here as long as it might have been from good points of vision. Its course is represented by all to have been North-Easterly.

In copying the above account, the Buffalo Commercial Advertiser says: " At Erie and Rochester, places about 150 miles apart in a straight line, the light was nearly as vivid as that of day. This shows the immense magnitude and great hight of the meteor."

IT A schooner called the 'Forward' was launched on Wednesday at Washington-intended for the Revenue service. IF Gen. J. R. FERWICK, a gallant soldier

noted for his valor in the last war, died on Marseilles, France, on the 19th of March, of apoplexy. For The Tribune.

Mr. Editor: I have been reading with inexpressible emotions the proceedings of the Congressional Total Abstinence Society, and also the eloquent speeches of the Hon. Messrs. Marshall, Wise, Briggs, and other gentlemen. I wish every gentleman in New-York would call at the office of the Ame rican Temperance Union, Clinton Hall, and furnish himself with this pamphlet. I know nothing which, at this time, will be more promotive of the cause of Temperance. Civis.

The British Queen, recently purchased by Holland, is to sail from Antwerp for this City in the early parts of May, July and September.

IF It is thought that the Louis Phillipe may be saved. All the cargo that could be get at has

Norfolk on the 16th.

Croton Water.

CROTOS WATER .- The Commissioner of the Croton A meduct gives notice that the water will probably be let into the distribution pipes on or before the Fourth of July next. The following is the Tariff of prices fixed for the privilege of using the [Jour Com.

INNUAL GHARGES.

INDEMNIFICATION .- Information has been, as we learn, received at the Department of State, that the Belgian Chamber of Deputies has wassed a law authorizing the payment of eight millions of france for losses caused by the late Belgian Revolution. These lesses include of course the merchandize belonging to American merchants, destroyed in the citadel at Antwerp.

We hear also that the British Government have acceded to the justice of the claim preferred by the United States Covernment on behalf of the swners of the brig Tigris, for the capture and detention of that vessel on the coast of Africa. [Madisonian.

VISITATION OF AMERICAN VESSELS .- We learn that Capt. Conway of the brig Mermaid, which arrived yesterday at this port, last from Rio Grande, was boarded twice on the Coast of Africa, from H. B. M. brig Brisk. He was treated, on both occasions, with great civility by the boarding officer, and no attempt was made to search his vessel. The officer would not even enter the cabin without a particular invitation. Captain C was informed by British officers, at St. Helena, that their government had given precise orders to abstain from proceedings of an offensive nature, such as the removal of hatches, and similar proceedings which have been complained of heretofore, Even in the British colony of St. Helena, public opinion was strongly expressed against the former seizure of the barque Jones, of this port.

| Salem Gazette.

TEMPERANCE AND ITS EFFECTS .- Crisne and ascality are almost at a stand in this city. Let those who doubt attend the Police Office a day or two, and they will be convinced. They will see that there is not now one case where there were formerly ten. The cause of this falling off is attributable to the glorious and onward progress of Temperance, which is spreading over the whole and, and which is doing more for the tempor interests of mankind than any other moral revolution which has ever preceded it. [Alb. Eve. Jour.]

IMPORTANT DECISION .- Chancellor Walworth has decided that the transfer of a bond and mortgage of a third person for \$3,000, the payment of which is guaranteed by the seller and another person, in consideration of the sum of \$2,600, is usurious and void. It has been heretofore held that the guaranty under such circumstances is usurious, but we believe this is the first time it has been decided that the transfer is usurious and void.

[Buffalo Com. Advertiser.

LAKE TRADE .- On the 14th, 15th and 16th of April, the total arrivals of vessels at Bullalo were is follows: 8 steambouts, 2 brigs and 8 schooners. The freight which they brought was as follows: 4,375 barrels of flour; 882 bushels corn; 40 barrels ashes; 883 kegs lard; 11 barrels whisky; 27 barrels fish; 233 barrels of different seeds; 2,276 barrels pork and hams; 21 firkins butter: 59 M. staves; 1.043 hides; 13 bales sheep pelts, and 58 barrels of hickory nuts.

BOWERY THEATRE YS. DELAWARE Co. IN-SURANCE Co .- This suit, which has been pending for four years in the District Court of Pennsylvania, and which was instituted for the recovery of the amount of a policy of insurance on the former Bowery Theatre, has been decided in favor of the Trustees of the stockholders, The verdict given is for the sum of \$3,743 50, being the amount of the policy, with interest.

The French Minister of Marine has recommended an increase of the French Steam Navy, by the addition of 5 steam frigates of 540 horse power each; 15 frigates of 450 horse power; 22 steam corvettes of 220 to 230 horse power each; and 30 vessels not exceeding 160 horse powermaking in all 70 additional steam vessels.

DIFFERENCE OF OPINION .- There seems to be a great difference of opnion at the present time as to the result of the late Charter Election in the Sixth Ward. The Democrats contend that the riot which occurred in the First District of that Ward vitlated the election in the whole Ward. The Whies on the contrary contend that the Inspectors of that District after the riot had ended, proceeded to the Mayor's office, canvassed the tickets, and made out their certificate and never discovered any thing to be wrong until the next morning when they found themselves in a minority through out the city, when they destroyed the certificate pind two of the Inspectors made a new one.

It is a singular fact that differences of opinion exist in this

country on almost every subject except one, and the excep-tion is Sherman's Lozenges. Persons of all parties admit them which they are recommended.

By-the-bye if the members of the Common Courcil will

call at Dr. Sherman's and get a few of his Camphor Loz-enges, before proceeding to the consideration of the Elec-tion case their nerves will be quieted and they will no doubt be able to arrive at a correct conclusion. The Doctor's office is at 106 Nassaust Important.—Dr. Flemming's Diarrhosa Candy is a certain, safe, and speedy cure for all bowel complaints, and is probably the nearest an infallible remedy of anything that can be obtained. It is most soothing and saintary in the Diarr-

icea attendant on the last stages of Consumption. His Worm Candy is a most effectual remedy for the total xtermination of worms in children. It is mild and effectual its operations.

His Dinner or Toxic Candy is a perfect remedy for cos

veness, indigestion, uneasiness, fulness or distress after eat-ag, hearthurn, &c. His Cathartic Candy is excellent for colds, bilious comlaints, fevers, foul stomach, and indeed in all cases where

Sold wholesale and retail at 135 Nassau-street, New-York.

MOST IMPORTANT .- At least ten per cent, of the deaths among children in this city are produced by Worms. Every week numbers of lafants are consigned to the grave through the agency of these fell destroyers. Mothers, why is this? The fault is yours; for Peters' Worm Lozenges are a speedy and an effectual cure for the disease; and hence, if your children die of it, you, and you only, are to blame. Persons subject to headage, drawiness or lowers of spicies. subject to headache, drowsiness, or lowness of spirits, should never be without a box of Peters' Cordial Lozenges. A headache may be cured by them in a few minutes; and their mysterious influence on the spirits is such that they dissipate gloomy feelings and beget pleasing emotions of the mind gradually as they dissolve upon the tongue. A person who fortifies himself with Peters' Cordial Logenges cannot be reduced to such a state of depression as to commit suicide. Equally effectual in the complaints for which they are prepared are Peters' Logenges for Coughs, Colds, Dyspepsia, Sea Sickness, &c. Offices 459 Broadway, 54 Fultonest, 240 Chathamest, 150 and 330 Bowery, and 446 Hudsonest, New York, and 440 Novel Sixth, 1804. Hudson-st., New-York; and at 90 North Sixth-st., Philadelphia. The Elixir of Life is not a fable, but in Peters' Lo-zenges has its existence and embodiment.

Correspondence of the Tribanc.

Washington, Tueslay, April 19. No business was performed in either branch of

At twelve o'cleck both Houses met in the Repreontative Hall, where were performed the funeral services of Hon. JOSETH LAWRENCE, late a Repreentative from Pesnsylvania.

The religious services were conducted by Rev. Sertimus Tuston, Chaplain to the Senate, in the coling of the 51st Psalm, succeeded by prayer and an appropriate and impressive discourse, which was listened to with marked attention by the Memers of Congress, the President and Heads of De. partments, the Commanding General of the Army, and as audience is the galleries, from Hebrews XL, 25 and 26: "By faith Moses, when be was come to years, refused to be called the son of Pharaph's daughter; choosing rather to suffer affliction with the people of God than to enjoy the pleasures of sin for a season.

A procession was then formed, the corpse removed to the Congressional burying ground, and there deposited in the receiving vault. Both Houses then adjourned.

The President has officially recognized Jean JAQUES AVERSENC, French Consul for Mobile.

Sun it appears that a Mr. Joseph Cragg removed the weight of the safety valve of the Medora to its farther extremity-thinking it proper so to do-

Dr. Felix Gourand had the good fortune to discover a method by which this most desirable object could be effected, and that too, without in the least degree injuring or discoloring the faire-tiskin. Since this valuable discovery of Dr. G.'s
